NO TO THE SINGLE CURRENCY FOREVER!

ONCE UPON A TIME, politicians went through the motions of pretending to represent "the English people". Times, however, have radically changed. Now, they can barely conceal their contempt for the people, the people who pay their greatly inflated salaries, and suffer the consequences of their moral corruption.

Listen to the Euro-extremist, Paddy Ashdown, on the single currency: "*We are on an irreversable journey on a one-way street.*"

Or to mega-rich capitalist dog-of-war, Michael Heseltine: "*There is going to be a single currency. The only issue is when Britain joins, because join we will.*"

Where do these people, allegedly "our" representatives, get off with this arrogance? Who the hell do they think they are, telling us in so many words that *they* will do what they like with *our* country's future, and that our role is but to pay up and shut up?

The naive might place more trust in Blair's "*all things to all men*" Labour Party, but they would be foolish to do so. Brown has declared that England will not join the single currency in the life time of this Parliament "*barring fundamental and unforeseen circumstances*". If there is one thing that is **absolutely foreseeable**, it is the arrival of Brown's "*unforeseen circumstances*" dead on time! Such mealy-mouthed talk is the hallmark of a hypocrite and liar. Blair and Brown have every intention of taking us into the single currency whether we like it or not, and this because they are the puppets of Big Business and the Banks. Six months of New Labour should have convinced even the

"democracy". We call it by its true name: **TREASON!**

The Third Position affirms that it is **irrevocably opposed** to the single currency. It is opposed because there is no political, economic or financial reason to support it. **But there are irresistible political, economic and financial reasons to oppose it.**

outside the Common Market. We entered, and having suffered growing unemployment, rising taxes, more immigrants and unending bureaucracy ever since. Those countries, like Switzerland and Norway, which stayed out have prospered, while we and the Germans have been pouring money into a bottomless pit of corruption in Brussels.

Financially, the Euro-extremists tell us, England cannot survive outside the single currency. Lies again! they told us the same about the *Exchange Rate Mechanism*, which **massively** pushed up interest rates, **promoted** unemployment, **bankrupted** thousands of small businesses, **ruined** tens of thousands of families buying their homes, **gave** billions of pounds to alien speculators, and even led to suicides.

Make no mistakes about this matter. If foreign bankers in Frankfurt get to issue our money, they will control every aspect of our lives - interest rates, mortgage rates, tax rates, financial investment and so on. The English already know how difficult it is to get themselves heard at Westminster with vaguely accountable politicians. What do they think it will be like when faceless, unelected bankers in another country take control of our economy? Dumping the puppet government of the day won't be any use, because they won't be in a position to do anything themselves!

The issue of the single currency is a life and death issue

ONCE UPON A TIME, politicians went through the motions of pretending to represent "the English people". Times, however, have radically changed. Now, they can barely conceal their contempt for the people, the people who pay their greatly inflated salaries, and suffer the consequences of their moral corruption.

Listen to the Euro-extremist, Paddy Ashdown, on the single currency: "*We are on an irreversible journey on a one-way street.*"

Blair and Brown have every intention of taking us into the single currency whether we like it or not, and this because they are the puppets of Big Business and the Banks. Six months of New Labour should have convinced even the brain-dead that the Labour Party are going to out-Tory the Tories in their slavishness to capitalism.

And the Tories, what are they proposing? Nothing other than floundering from one disaster to another. Devoid of principles, devoid of vision and devoid of even a leader with a *semblance* of personality, all they can offer is no entry for 10 years.

So Parliament - the institution that is supposed to reflect what *we*, the people, want - is offering the English people the single currency *today* (Lib Dem), *tomorrow* (Lab) or *next week* (Con)! And this when all the opinion polls show that the vast majority of the English want nothing to do with this 'funny money'. The Establishment calls this joke

"democracy". We call it by its true name: **TREASON!**

The Third Position affirms that it is **irrevocably opposed** to the single currency. It is opposed because there is no political, economic or financial reason to support it. **But there are irresistible political, economic and financial reasons to oppose it.**

**AGAINST THE EUROPE
OF THE BUREAUCRATS
AND BANKS!**

**FOR THE EUROPE
OF THE PEOPLES!**

The surrender of the right of the people to coin their own money can only lead to the extinction of our national independence; indeed, it will lead to the complete destruction of our nation and way of life. Anyone who doubts this should look at the twenty odd years of our membership of the Common Market - a club of greedy and corrupt businessmen and freemasons. There has been no aspect of our national life that they have not tried to control or destroy.

Economically, the Euro-extremists tell us, England cannot survive outside the single currency. Lies, pure and simple! They told us in 1973 that we couldn't survive

outside the Common Market. We entered, and having suffered growing unemployment, rising taxes, more immigrants and unending bureaucracy ever since. Those countries, like Switzerland and Norway, which stayed out have prospered, while we and the Germans have been pouring money into a bottomless pit of corruption in Brussels.

Financially, the Euro-extremists tell us, England cannot survive outside the single currency. Lies again! They told us the same about the *Exchange Rate Mechanism*, which **massively** pushed up interest rates, **promoted** unemployment, **bankrupted** thousands of small businesses, **ruined** tens of thousands of families buying their homes, **gave** billions of pounds to alien speculators, and even led to suicides.

Make no mistakes about this matter. The English already know how difficult it is to get themselves heard at Westminster with vaguely accountable politicians. What do they think it will be like when faceless, unelected bankers in another country take control of our economy? Dumping the puppet government of the day won't be any use, because they won't be in a position to do anything themselves!

The issue of the single currency is a life and death issue for the English people and the English nation. It is a struggle over whether or not we are going to have even a semblance of control of **OUR** country!

Ashdown, the traitor, says that the move to a single currency is "irreversible". He is wrong.

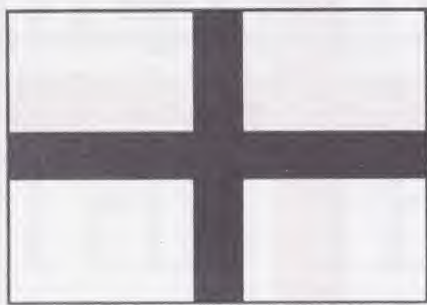

Nonetheless, the day the English decide they have had enough of traitors and decide to put patriots in charge, that will be the day that sees the end of the single currency in this country.

The Third Position says to all and sundry on this vital question: **Not Now! Not Ever!**

BOYCOTT DISNEY!

We know that there is something afoot when homosexuality is being pushed so forcibly by the media, the courts, and government, when the people do not favour this moral decay.

Some may ask, why we have returned to the subject after dealing it a hefty blow in the last issue - but this is one fight we intend to continue. The enemy is pushing heavily for "equal rights" for homosexuals. We have a good chance of winning over a large number of people to our banner as we stand against the decadent onslaught.

A good way of mobilising the population against the homosexual propaganda we see so much of, is by way of a boycott.

In America a large boycott is underway, against the Disney corporation. Disney is now in the hands of alien speculators - chiefly Michael Eisner - and has given over Disneyworld, Florida, to homosexuals for a whole weekend so they can "celebrate" their homosexuality.

THE MARCH OF THE FAIRIES

THOSE WHO KNOW a little about Irish folk music will be acquainted with a very famous piece entitled *The March of the Fairies*. A thoroughly popular piece of music, it is guaranteed to get any party off to a great start. England too now has its own "*March of the Fairies*", but unlike its Irish counterpart it is not popular with the English, and is only *guaranteed* to continue the downward spiral of this country. The "fairies" in question are those who go to make up the aggressive, anti-family homosexual lobby.

Despite the fact that it is common knowledge that the *overwhelming majority* of the English people want no truck whatever with homosexuality in our schools, in our work places and in our social relations, the liberal politicians of all parties are falling over themselves to "*fight homophobia*". Of course, "homophobia" properly means "a fear of men" - so there is no problem for most of our people, because very few people fear men in general. But "homophobia" in the mouths of liberals simply means hostility to the filthy practices of homosexuals. That normal people can be attacked and held in contempt for refusing to accept such vile sexual perversion is a sign of just how rotten our society has become. It seems that no-one in the Establishment is prepared to support what any normal man in the street knows: that homosexuality is not "*an alternative lifestyle*", but a revolting and sick disease that rots the guts out of a society. Even the so-called "*party of the Family*" - the Tories - repeat this platitude about "alternative lifestyles", and this is likely to get worse under the 'leadership' of Hague who voted in 1994 to reduce to 16 the age for consenting buggers.

The politicians are not the only ones out there bringing comfort to the "*oppressed homosexual community*". It seems that Church leaders, ever anxious to be 'relevant', do not wish to fall behind in their declared support for the "oppressed". Witness, for

example, the dribbling of the ever bland Church of England Bishop, Harries, who tells us "*I do support the lowering of the age of consent for homosexuals to 16*", although he does *not* support homosexual marriages or blessings. Well, that *is* comforting to know, isn't it? But since he changes his mind on such issues with predictable regularity, it can only be a matter of time before he sees that such a restriction on queer marriages is, in itself, evidence of Bishop Harries innate "homophobia"!

Or again, we read of the Right Reverend Martin Wharton, C of E Bishop of Newcastle, telling us that "*homosexuality within a loving, permanent relationship is no sin*". Clearly, neither of these drips has ever read *The Bible*. If they had, they would have come across this interesting titbit: "*If anyone lie with a man as with a woman, both have committed an abomination, let them be put to death: their blood be upon them*" (Book of Leviticus). Strong stuff! But no doubt the liberals will be able to explain it away by saying that "*God is homophobic*"!

Then, naturally, we have the media men falling over themselves to promote homosexuality. No book, no show, no film is complete these days without "*the homosexual twist in the plot*" - indeed, this "*twist in the plot*" has become so common that it has become one big yawn. Actors and all sorts of "Celebrities" come out of the closet with monotonous regularity, and are given ample time and space to explain their sick views.

Liberals spouting meaningless nonsense!

Even the scientists are trying to get in on the act. Matt Ridley, in an absurd article in The Telegraph in October entitled *Nature teaches tolerance to gays* tells us, with baited breath, about "a new study on the biological causes of homosexuality". We are then told that "*In America, the notion that homosexuality might be largely genetic has been welcomed by homosexuals*". Well that *is* a surprise isn't it? It is also very convenient, for it means that people who indulge in unnatural practices don't have to blame themselves, but their genes. No doubt, this craze will continue, so that paedophiles, drunks, wife-beaters, swindlers, drug pushers and politicians in due course will claim that they "*were born that way*".

Unfortunately, for Ridley and the pseudo-scientists that his kind promote, there is not a shred of real scientific evidence to back up the notion of a *genetic cause* for homosexuality. Earlier this year, another scientist made the headlines with another "genetic cause", when it was pointed out that homosexual brothers were found to have certain genetic pairings in common. "*Has a homosexual gene*"

Disney is now the subject of a wide-ranging boycott by the American Family Association, the Southern Baptists, the Catholic League for Civil and Religious Rights, pro-family organisations and all manner of normal folk who are fed up of pro-homosexual and anti-family propaganda being dressed up as 'entertainment'.

The boycott has been so successful, that the media shy Eisner had to appear on the '60 Minutes' TV programme to say how little effect the boycott was having! Intermingled with this nonsense was talk of 'understanding' and 'tolerance' and other meaningless sound bites.

Earlier this year, another scientist made the headlines with another "genetic cause", when it was pointed out that homosexual brothers were found to have certain genetic pairings in common. "*Has a homosexual gene been found?*" screamed the papers. *No*. Why? Because one scientist - spoil sport! - asked about the scientific control: what was the situation of such genetic pairing in *NON-homosexual* brothers? Answer: *Don't know!* Thus, this 'scientific' breakthrough might as well have said that it was found that most homosexual brothers had two ears and two eyes, for all the scientific relevance it had! That such pathetic and dishonest work should be given serious coverage in a daily newspaper tells us two things.

Firstly, that the queer lobby and their friends are working overtime to try and break down the hostility of normal people. Secondly, that the lobby is having a tough time, for unlike the "nature" that Ridley appeals to in the article, Nature does *not* teach tolerance of perversion. It seeks its extinction, and effectively so, for homosexuality is *not* found in Nature. Likewise with normal people:

THE DEATH MARCH

1997 IS THE 30th anniversary of the *Abortion Act* in England. It is also the year in which the United Nations discovered a new global problem: *the problem of declining populations in dozens of countries*. Yes, you read that correctly. The UN is not worried about a population *explosion*, but a *population implosion*. After 50 years of telling us there were too many people being born, the "experts" are now telling us that insufficient numbers are being born.

Current figures show that in Italy, once a by-word for large families, the fertility rate is just 1.24 children per woman. the figures are not much better in England, Germany, Spain or the United States. So that you understand clearly what this means, it should be kept in mind that if every woman of child bearing age had 2.1 children, the population would remain *static*; that is, there would be one birth for every death. Now look at the figure again

"backstreet abortions" that never came to more than a *few dozen* in any given year.

Such politicians regard this savagery as 'progress', and many of them went on to urge that this baby-killing "benefit" be extended to Ulster - despite the fact that the overwhelming majority of Catholics and Protestants do not want this vile practice being extended to their country. David Steel, the architect of the original bill, has even said this bill was the crowning achievement of his political 'career'. Mass murder is vile. To revel in it is unspeakable, Mr. Steel.

The damage that abortion has done to this country and its people is incalculable. Not content with murdering millions, it has destroyed families, women have been driven half-mad by grief through justified guilt, and many have committed suicide. Combined with an increase in the promotion of promiscuity (bringing about more abortions), the

Spread the word! The only people who should buy from Disney stores or go to any of the Disney holiday theme parks are people who support the erosion of family values. Those of us who stand for the family and are against homosexuality can hurt them in their tills!

THE DEATH MARCH

1997 IS THE 30th anniversary of the *Abortion Act* in England. It is also the year in which the United Nations discovered a new global problem: *the problem of declining populations in dozens of countries*. Yes, you read that correctly. The UN is not worried about a population *explosion*, but a *population implosion*. After 50 years of telling us there were too many people being born, the "experts" are now telling us that insufficient numbers are being born.

Current figures show that in Italy, once a by-word for large families, the fertility rate is just 1.24 children per woman. The figures are not much better in England, Germany, Spain or the United States. So that you understand clearly what this means, it should be kept in mind that if every woman of child bearing age had 2.1 children, the population would remain *static*; that is, there would be one birth for every death. Now look at the figure again. This time you will see something a little different. You will see that the Spanish, Germans, Italians, Americans and English, as peoples, are *dying out*. If such rates continue, all our peoples will be memories, pure and simple.

Why have we linked this appalling fact to the 30th anniversary of the *Abortion Act*? Simply because the two are directly linked. If there are too few children in Europe, then obviously the most urgent priority facing political leaders is to stem the decline, and do everything necessary to get the birth rates back up. Stunningly obvious, you might think. But this did not stop over 100 MPs, from all the main parties, from signing a Commons Motion supporting the legalisation of baby killing. In just 30 years, nearly *five million* children have been cruelly murdered in their mothers wombs - or as these supporters of murder like to call it "*safely terminated pregnancies*". Five million - half the population of London - killed to suppress the

"backstreet abortions" that never came to more than a *few dozen* in any given year.

Such politicians regard this savagery as 'progress', and many of them went on to urge that this baby-killing "benefit" be extended to Ulster - despite the fact that the overwhelming majority of Catholics and Protestants do not want this vile practice being extended to their country. David Steel, the architect of the original bill, has even said this bill was the crowning achievement of his political 'career'. Mass murder is vile. To revel in it is unspeakable, Mr. Steel.

The damage that abortion has done to this country and its people is incalculable. Not content with murdering millions, it has destroyed families, women have been driven half-mad by grief through justified guilt, and many have committed suicide. Combined with an increase in the promotion of promiscuity (bringing about more abortions), the liberal agenda has brought England to the brink of final and irrevocable collapse.

It is for these reasons that the Third Position will:

1. Repeal the Abortion Act, allowing for no exceptions as baby killing is wrong in *all* cases.
2. Dismantle all agencies, public or private, which have contributed to the death culture destroying our country and our families.
3. Enact legislation that will give generous financial and educational advantages to couples who have large families.

We *must* bring to an end the contempt of large families that the liberal tyranny has been pushing for 30 years. If we don't, we will be 'celebrating' the end of England and the English in another 30 years. Only the irremediably liberal or insane will think otherwise - for the future of their children and their children's children.

the headlines with another "genetic cause", when it was pointed out that homosexual brothers were found to have certain genetic pairings in common. "*Has a homosexual gene been found?*" screamed the papers. *No*. Why? Because one scientist - spoil sport! - asked about the scientific control: what was the situation of such genetic pairing in *NON*-homosexual brothers? Answer: *Don't know!* Thus, this 'scientific' breakthrough might as well have said that it was found that most homosexual brothers had two ears and two eyes, for all the scientific relevance it had! That such pathetic and dishonest work should be given serious coverage in a daily newspaper tells us two things.

Secondly, that the lobby is having a tough time, for unlike the "nature" that Ridley appeals to in the article, Nature does *not* teach tolerance of perversion. It seeks its extinction, and effectively so, for homosexuality is *not* found in Nature. Likewise with normal people: normal people will put up with a lot - too much! - but there comes a limit at last.

Homosexuality is not a lifestyle, it is a disease, a virus. It should be treated as such, by isolation, medical treatment and spiritual direction. If this disease is not controlled, it will become an epidemic. Unconvinced? In just six weeks, we have had the bleating of the above Bishops; Bill Clinton appointing an open homosexual as American ambassador to Luxembourg; Chris Smith, New Labour's Secretary of State for Culture, taking his 'partner' to a reception at Buckingham Palace; two lesbians being told in the *European Court of Justice* that they have the same rights to employment perks as unmarried heterosexuals; and remembrance Day being defiled by an 'alternative' ceremony - complete with pink wreaths - in memory of homosexuals who died in the war. This is just the tip of the iceberg. More and worse is yet to come.

BE WARNED: The fairies are on the march!

WHO SPEAKS FOR THE ENGLISH?

IN AN AGE of politically correct politicians and money-grubbing Big Businessmen and bankers, it all too often seems that nobody speaks up for the ordinary Englishman. Our families are undermined materially by bureaucracy and government taxes on the one hand, whilst homosexuals, abortionists and bleeding heart liberals undermine family values through perversion

and murder on the other. It seems that no matter where we look, there's always some 'expert spokesman' or other attacking England, the family, our heritage and interests. Such 'experts' quote *dubious* sources for their equally *dubious* claims, whilst the media does little or nothing to contradict their anti-English lies.

FIGHT BACK

It's as if we're meant to sit back and take all the rubbish they throw at us. It's as if it is acceptable for them to run down our Country and everything that is dear to us.

Well, the time when these low lives - be they socialist teachers or grasping bankers - could have it all their own way is coming to an end. The fight back has begun. Ordinary men and women, the length and breadth of England, are saying "*Enough is enough!*"

We are fed up with degenerates. We are fed up with high taxation. We are fed up with criminals. We are fed up with endless alien immigration. We are fed up with pensioners being treated as second class citizens. We are fed up with the lack of a future for our children.

The list is never-ending.

ENEMIES

How long do the enemies of the English think they can treat us this way and get away with it? They may be sitting pretty now, but their treason and corruption cannot go on forever.

As long as the people of England are isolated and disorganised, the politicians and bankers, who have bled this country dry, will remain at the helm and *continue* abusing this nation. It is easy to say "*what can I do?*", or "*I cannot possibly make a difference*". But that is what the anti-English establishment want you to think. They tell us that "*the clock cannot be put back*", that the happy, prosperous and contented England of the past is no longer possible.

WHO CARES ABOUT HER RIGHTS?

we have Truth on our side, and a growing number of people *are* seeing through the lies and manipulation of the Establishment..

As more and more people understand that the whole system is rotten, so more and more will seek a solution. That's where activists and committed supporters come in. They can show them that there is a way out of the crisis, that there is hope for the future.

WHERE WE STAND

1. THE PRIMACY OF SPIRIT. We believe that the quality of a society is a reflection of the quality of *the men* in that society. Thus, we need New Men to build a New Society. For us, therefore, Spiritual Revolution is *not* an option, it is a *vital necessity*.

2. THE MORAL ORDER. The modern world is the product of *low* standards or *no* standards. The only logical answer, therefore, is to rebuild a moral society that rejects the "*culture of death*" represented by Abortion, Euthanasia, Divorce and Homosexuality.

3. OPPOSITION TO MATERIALISM. Capitalism, Socialism, Anarchism, Freemasonry, Modernism and Liberalism are *all* expressions of Materialism. *None* will be tolerated in a National Revolutionary State.

4. ZIONISM. We oppose every manifestation of Zionism, believing it to be a threat to world peace. Zionist influence, wherever it lurks, must be completely stamped out.

5. POPULAR RULE. Westminster is not government, but *dictatorship by deceit*. We believe that political structures for direct participation by citizens must be adopted in the community's interest.

6. RACE. We are wholly opposed to the multi-racial society. Since each race has a right to self-determination, we believe that the English are entitled to *unequivocal* and *absolute* possession of their country. Humane resettlement of all non-European immigrants is in the best interests of all peoples.

7. THE ENVIRONMENT. Preservation of all aspects of the environment - land, sea and air - is *central* to Nationalist politics. As such, they will *never* be sacrificed to economic theory or political whim.

8. THE BANKS. The current Banking System is *murdering* our country at all levels through *unpayable debt*. We believe that the banks must serve the National Interest, and under a Nationalist government *will* do so!

9. OWNERSHIP. We are a Distributist movement, which believes in widespread property ownership in the form of: family farms, Guilds, and small businesses. Individual interest and the Common Good *must* be in harmony.

Well, the time when these low lives - be they socialist teachers or grasping bankers - could have it all their own way is coming to an end. The fight back has begun. Ordinary men and women, the length and breadth of England, are saying "*Enough is enough!*"

EVERYONE COUNTS

This is utter nonsense. Every single person joining "The Crusade" to liberate England from her enemies makes a *real* difference. It's true that the task ahead is difficult, but

we have Truth on our side, and a growing number of people *are* seeing through the lies and manipulation of the Establishment..

The Third Position has a serious strategy for winning back England. It is the strategy of Counter Power, the *sole* option left open to a suffering people!

Revolutionary State.

4. ZIONISM. We oppose every manifestation of Zionism, believing it to be a threat to world peace. Zionist influence, wherever it lurks, must be completely stamped out.

5. POPULAR RULE. Westminster is not government, but *dictatorship by deceit*. We believe that political structures for direct participation by citizens must be adopted in the community's interest.

6. RACE. We are wholly opposed to the multi-racial society. Since each race has a right to self-determination, we believe that the English are entitled to *unequivocal* and *absolute* possession of their country. Humane resettlement of all non-European immigrants is in the best interests of all peoples.

7. THE ENVIRONMENT. Preservation of all aspects of the environment - land, sea and air - is *central* to Nationalist politics. As such, they will *never* be sacrificed to economic theory or political whim.

8. THE BANKS. The current Banking System is *murdering* our country at all levels through *unpayable debt*. We believe that the banks must serve the National Interest, and under a Nationalist government *will* do so!

9. OWNERSHIP. We are a Distributist movement, which believes in widespread property ownership in the form of: family farms, Guilds, and small businesses. Individual interest and the Common Good *must* be in harmony.

10. NATIONAL REVOLUTION. We believe in an alliance of National Revolutionary States and Peoples as a necessary weapon in the struggle against the New World Order. A Nationalist world is the best guarantee of stability and justice for all.

COUNTER POWER FOR ENGLAND!

FOR DECADES, nationalists in Europe have sought to regain control of their countries by two fundamental approaches: Parliamentary elections and armed struggle. Clearly, given the current state of Europe, neither has worked; and neither could have worked for the good reason that, in spite of the apparent differences, they are both strategies that play the

Establishment's game. Consensus politics and confrontation politics are two sides of the same coin, for the first hands over colossal sums of *our* money to the State during elections, whilst the latter invites the State to clobber us out of existence with their vastly stronger police force and security forces. In both cases, nationalists are directly 'involved' with the State; in both cases, Nationalists are fighting on enemy terms; in both cases, nationalists have no chance.

What is needed is a strategy that is new and fresh, a strategy that gives us a fighting chance, and one which is

expansion and in-depth consolidation. In other words, they will see the New England arise before their eyes brick by brick, not by the waving of a magic, parliamentary wand!

The purpose of Counter Power is to build positions of

strength from which to expand outwards. Thus, we must seek to create pockets of support in selected communities, and amongst key social classes such as small businessmen, militant workers and radical students. We must create economic structures that provide more and more money to advance the National Revolution, and which provide a living for more and more comrades and their families outside of the System. We must seek to take over more and more houses, and more and more land in rural areas, in order to build bases that are healthy and are a living example of what we want the New England to be.

Sounds utopian? Sounds a bit far-fetched? Yes, but *only* to those who are *not* involved with the *Third Position*, for the Third Position has *already* set up shops and

that "the clock cannot be put back", that the happy, prosperous and contented England of the past is no longer possible.

EVERYONE COUNTS

This is utter nonsense. Every single person joining "The Crusade" to liberate England from her enemies makes a **real** difference. It's true that the task ahead is difficult, but

system is rotten, so more and more will seek a solution. That's where activists and committed supporters come in. They can show them that there is a way out of the crisis, that there is hope for the future.

The Third Position has a serious strategy for winning back England. It is the strategy of Counter Power, the *sole* option left open to a suffering people!

What is needed is a strategy that is new and fresh, a strategy that gives us a fighting chance, and one which is largely under our control. Such a strategy must *not* engage the State directly, and it must largely be immune to the attacks of the media. That strategy is called Counter Power.

Counter Power is based clearly on the on the idea that we can only retake our country from the bottom up, just as we can only build a house from the foundations up. Once this is really understood, militants will not be seeking overnight 'national' victories or spectacular results, but rather will be looking for steady growth, territorial

expansion and in-depth consolidation. In other words, they will see the New England arise before their eyes brick by brick, not by the waving of a magic, parliamentary wand!

OUT AND ABOUT

MEMORIAL

A SPECIAL FUND is being opened to raise a memorial to Movement veteran Wallace Wears. The memorial will be situated by a grand old oak tree at one of the Movement's rural properties that Wallace often visited.

Monies are payable to 'TPFF' and should be accompanied by a note stating that it is for the Wallace Wears Fund. An SAE should be enclosed if acknowledgement is required.

TRAINING SEMINAR

A TP weekend camp and seminar was held on one of our properties in rural England at which activists from various regions gathered to learn more about the struggle and meet fellow militants.

Numerous talks were given on history, activities and ideology. Food was supplied throughout the weekend and a camp fire was lit well into the night.

CONSECRATION

THE 29TH OF September 1997 will be remembered as an historic day for the Movement. The Leadership of the Third Position met to solemnly consecrate the movement to God, under the protection of St. Michael whose feast day was chosen for this momentous occasion.

Similar consecrations were made on the same day by National Leaderships of the Movement throughout Europe.

MOVEMENT REUNION

A EUROPEAN CONFERENCE was held in London during October. The two day reunion brought together Leaders of the Movement representing a dozen countries.

The conference achieved its aims and

MIDLANDS MILITANTS SHOW THE WAY!

ACTIVISTS IN the Midlands are showing others around the country how it's done when it comes to militancy. Shortly after opening a regional contact address they were out on the streets selling copies of

The Voice of St. George and distributing their new anti-paedophile leaflet (see left).

A St. George's Cross flag attracted the attention of Saturday shoppers in the market town they hit first and a good number of papers were sold and leaflets distributed.

THE FALLEN

Our Comrades in the Midlands attended the local Remembrance Day ceremony to show that whilst remembering those who sacrificed their lives, they are fighting for

Local militants say that they are going to step up activities in an effort to get the message across to more people. Various areas and towns in the region will be targeted to bring in enquiries, bolster the patriotism of local residents and keep the enemies of England on their toes!

ENQUIRIES

Enquiries from across the region from posters, stickers and leaflets have already shown that English Nationalism has clearly hit a chord with the people of the Midlands. The quality of enquirers means that our people in the Midlands are building a good base of support.

The local squad leader tells us that he can really on a good team of dedicated people when it comes to activities. The advantages of the new squad structure (see 'Out and About' last issue) are clearly paying off with regular meetings on strategy and education reaping good results. The Movement is already looking at serious ways of building the Counter Power in the Midlands that will compliment existing structures.

A local fund has been set up, which the militants are putting monthly dues into. This will pay for local propaganda to help build the Movement in the Midlands.

If you would like to send a donation to help our Comrades in the Midlands, send a cheque/PO made payable to 'Midlands TP' to the following address. If you would like to help the Movement in the Midlands region in an active capacity, then get in touch.

For all donations, enquiries etc. write to.

The VOICE of St GEORGE

PROTECT OUR CHILDREN FROM PAEDOPHILES

For years English people have been sickened by the way paedophiles and rapists have preyed upon children. The system protects these evil scum by consistently letting them re-offend and continually attack our innocent children. We say: enough is enough! Deal with them the only way they understand.

HANG THEM HIGH! and let our children grow up without fear. While the media portrays homosexuality as normal and continues to campaign for the homosexual age of consent to be lowered, we continue to tell the English people the truth.

WHERE WE STAND

FAITH	FAMILY	ABORTION
Europe was once Christian and civilised. The loss of faith brings degeneracy, crime and corruption.	The family is the cornerstone of all societies. Large well-knit families should be encouraged.	The murder of innocents is a genocidal crime. It must be outlawed immediately.
CRIME	GUILDS	
Criminals should not be given preferential treatment. Capital punishment should be restored.	The Guild System will protect our workforce from unjust competition and be the school of skills for future generations

THE FIGHT ELSEWHERE

ROMANIA

Gazeta de Vest is a journal which follows in the footsteps of the Romanian Legionary movement. Here is a short interview with the editor:

1. Tell us about your formation.

In the 'revolution days' (against Ceausescu) we went on our own from the University leadership and changed the students' magazine name from Forum Studentesc into Gazeta de Vest. I met the Iron Guard as a journalist; instantly my sympathy for this organization became extraordinary and in two months I was attacked by the men of the secret police with the aim to stop publishing on the IG.

2. Tell us about the Counter Power and 'Nest System' in Romania...

In Romania the Counter Power started in the 20's when Codreanu began the vegetable garden of Mme. Ghika in Iasi, the brick making at Ungheni, and with a small truck used to sell the merchandise produced by the young comrades. In the 30's Codreanu launched the Legionary Trade that threatened a lot the Zionists - they saw a fair competition in the Legionary Trade and they hated it, so they put pressure on the govt. to destroy the Legionary Counter Power of the 30's. In 1938, when Carol II launched the repression, he started by closing all Legionary Counter Power structures. Today we have one Printing and Publishing House - GORDIAN and one bookshop - GALERIA ROMANEASCA in Timisoara. We also have a permanent summer camp at an Orthodox Monastery in the W.

Carpathians, where we contribute to build the church on the construction site. We have a bookshop in Cluj - ANTIM. We are attempting to build CP structures in Brasov, Suceava, Caransebes and Sibiu, (from agriculture to economics).

On the Nest system: we have one nest in TM, one in CJ, another one in the South of Banat, other three in Transylvania, one in Bukovina, one in Moldavia and one more in Moldova Rep. [Bessarabia] - the Eastern Moldavia now under Russian occupation. As well as the nests, we have the CLUB STOICANESCU, which is open to the public.

3. Gazeta de Vest is produced in English - why?

Beginning from Feb. '96 we decided to issue a regular GdV in English. Through the TP we made good contacts in Europe that we intend to develop and strengthen. So far we've been visited by Irish, Welsh, Italian and German comrades and made many more visits ourselves.

By the help of a great veteran of the Legion now living in Brazil, we have a Portuguese version of GdV. We are preparing an English-Spanish-German-Portuguese-Romanian Iron Guard Internet Site.

Take a look at the new web site of THE CHRISTIAN ACTION ARCHANGEL MICHAEL. <http://www.geocities.com/CapitolHill/Lobby/7103/index.html>

See page 4 for details on 'Gazeta de Vest' in English and the superb book - The History of the Legionary Movement by Horia Sima, published by Legionary Press. The Romanian version of Final Conflict is available for 20p from their address on page 4.

BUILDING THE COUNTER POWER

In this part of **The Voice of St. George** we look at the various ways the Third Positionist movement is combating the corrupt Capitalist system and the nihilist Socialist cancer. We are the only positive and real alternative and we prove this through our actions as well as our words . . .

THE THIRD POSITION HANDBOOK

IN THE LAST issue of *The Voice of St. George* we published a small advert for the **Third Position Handbook**. * Why on earth should we choose to feature this in the 'Counter Power' part of the paper? Quite simply because the handbook, as well as all the other gems it bestows on its readers, shows how the structure of the movement ties into the Counter Power structure.

The introduction is brief and to the point. It explains why we are fighting for England and the world in which we live.

The first part of the booklet is the chapter about the need for ideology in the modern world, though this may seem obvious - all too many people live in an ideological vacuum, filled with the throw away garbage the New World Order gives them in the form of game shows, fast food and 101 other things of which we have no need.

The next chapter deals with the 10 Points of the Third Position. Having read about the need for ideology - we can read the Third Position worldview in depth.

Having established our ideological base, we move on to the vehicle for the ideal. The following chapter deals with 'the Legionary Model'. We have looked at the Movement's beliefs - its soul - we now turn to its body. This chapter outlines why we as a Movement are based on the Nest system of the Legionary Movement. Parliament and terrorism are denounced as dead ends and it is explained exactly why we are opposed to both. So what, asks the informed reader, is the answer?

THE ESTABLISHMENT

The booklet then explains the idea of Counter Power, how it is the only road that avoids involvement with the Establishment, what we hope to achieve through it, and how it is not some vague idea, but a reality that has worked when it has been carried out.

The next chapter moves on to explain the Third Position's structure. This chapter is important, given that this is a

The booklet takes the reader through the Movement from the lowest to the highest level and covers things such as political activities, the relationship between supporters (TPFF members) and militants, the role of the Squads in building the Counter Power and much, much more.

COUNTER POWER

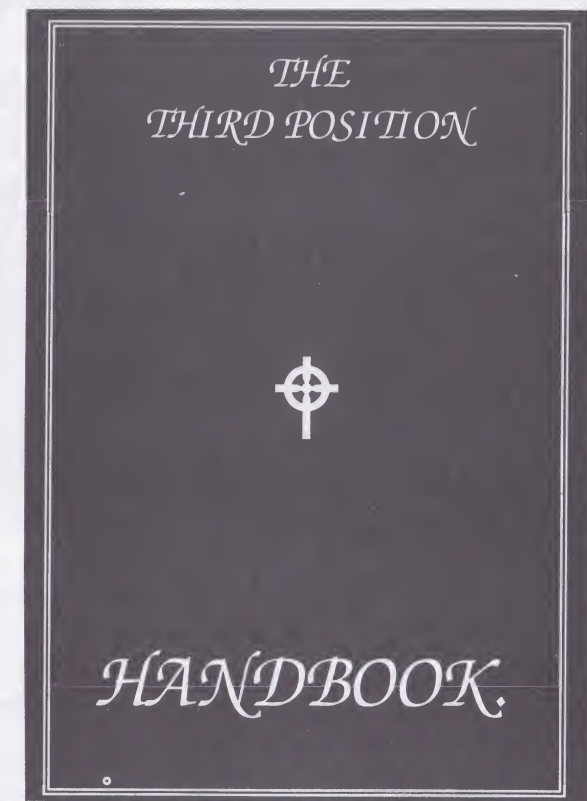

It is made clear that whilst a Section is the *ideal* organisational base in an area for Counter Power to be widespread in the region, even the Nuclei can begin the Counter Power ball rolling, and there is still much that a Cell (two militants) can achieve

Supporters and sympathisers of the movement will find this booklet interesting too - if only to see what the militants of the Third Position are doing and who knows, the booklet may well act as a spur for many to take the plunge and become active participants in the Crusade to take England back from her enemies!

The penultimate chapter is on security. This gives a timely reminder to all that security is paramount, and whilst we shouldn't become paranoid, basic security measures will stop our enemies getting information on us and our actions as easily as they'd like.

The last chapter gives some ideas on what the reader can do next, wherever he feels he'd like to fit into the Movement. This is followed by a recommended reading list.

This booklet will be an absolute boon to all the movement's activists, as it puts the organisational struc-

The next chapter moves on to explain the Third Position's structure. This chapter is important, given that this is a wholly new structure in England and that it will be this structure that will enable the Movement to expand greatly on all levels.

Regular readers will know that the Movement is now organised on what is called the 'Squad Structure', based on the old 'Nest' structure of the Legionary Movement. This means that militants are organised into 'Squads' of between 3 and 13 activists, with no room for 'hangers on' as used to happen in the old branch structure of days gone by.

The booklet goes through the various sized groups of militants - from isolated individuals (Nuclei) to large groups of militants (Sections - made up of three Squads).

This booklet shows that the Movement in England has matured and is clearly organised for victory. Now it is up to our militants and supporters whether we take back our land. The time for hobbyists is past. The time for serious growth and Counter Power is here!

** In our last issue we put the price at £1.50, however, due to the size of the booklet being larger than first estimated, the retail price has risen to £2, plus postage.*

HELP THE MOVEMENT - GO ON HOLIDAY

AS A PART of our aim to build the Counter Power right across the spectrum, we've started organising holidays for Nationalists.

In the past we have organised holidays to Croatia. Now we are organising holidays to another beautiful, unspoilt part of Europe - Transylvania.

Full details are in the latest issue of *Gazeta de Vest* (see page 4), but basically a tour will be organised for you, incorporating the *fantastic* scenery of Transylvania, various sites of interest to Nationalists, Monasteries, Dracula's Castle and much, much more.

You will stay in friendly homes with all the amenities you'd expect on a professionally organised tour. All transport will be arranged for you. You will be able to mix with the locals, buy souvenirs and generally relax, away from the noise and smell of urban England.

If you are interested, write to: Final Conflict, BCM Box 6358, London, WC1N 3XX, or: *Gazeta de Vest*, Str. Remus 11, 1900 Timisoara, Romania.
